

Effective Immediately:

- Jail visitation has been suspended.
All non essential employees, including volunteers will not be allowed into the jail at this time. Attorney visits will continue as normal. This action will remain in place until March 31, 2020, and then will be re-evaluated.
- The lobby of the Sheriff's Office will remain open during normal business hours.
Prior to coming into the Sheriff's Office, it is encouraged for patrons to call and inquire if their request can be handled over the phone. We encourage the public to evaluate their reason for the visit to the Sheriff's Office and determine if it is necessary or if it is something that could be handled at a later date.
- Citizens entering the Jefferson County Sheriff's Office for necessary purposes, will be screened before entrance into the facility
- Responding to calls from the public. We will respond to calls as normal.
Again I encourage patrons to call the Sheriff's office prior to coming in, and inquire if their request could be handled over the phone.

The safety to the citizens of Jefferson County, my staff, and inmates in my jail are of the utmost importance. I'm in hopes things will all go back to normal in time.

Thank you for your cooperation in this matter. Use good judgment and be safe.

Sheriff Herrig
